# SMART BULBS MAKE AUTOMATION EASY

## FEATURES

- Energy efficient (9 watts)
- Long life (up to 20,000 hours)
- Bright (equivalent to 60 watts)
- Z-Wave radio built in (communicates directly with the IQ Panel)
- Universal (fits in any standard lightbulb socket)
- Strengthens your network (acts as a Z-Wave repeater)
- Easy to pair by turning the light "on"
- LED technology for brightness and long life
- "Soft white" hue
- Dimmable
- Create home automation rules such as "Turn on light when walk into a room" or "Turn on light when someone rings the doorbell"
